Bangalore, India

(September 2015 to January 2016)

IPAWAC - Intelligent Personal Assistant with Alternative Communication

*M.S. Ramaiah Institute of
Technology, Bengaluru, India*

CORE MEMBER

2016-2017

- Intelligent Personal Assistant running on macOS using Python3 that incorporates alternative modes of communication such as text input via terminal and also speech via microphone.
- Also incorporates vision for the assistant using OpenCV and has capability to learn and then recognise faces by building models after capturing and training data (using Fisher models).
- Incorporates offline wake-word detection using Snowboy engine, including capability to put the assistant to sleep and then wake up
- Keeps modular nature of the modules and includes Gmail, Google Contacts integration with OAuth2 authorisation mechanism.
